

BOURDON
The Original by Baumer

Main Features

- Pressure range from 160 mbar to 400 bar
- Wetted parts in specific materials
- Temperature -40°C ... 400°C
- Class 150 to 2500
- NPS 2" to 3"
- PN10 to PN100
- DN50 to DN80

Applications

- Oil & Gas / Chemical
- Water / Waste water
- Energy
- Process technic

Technical Data

This diaphragm seals with flanged process connection and specific materials are used to protect pressure gauges from high temperatures, aggressive or corrosive fluids.

The diaphragm seals allows direct mounting on standardized flange connections of pipes or tanks. With the flush diaphragm these seals are used especially for fluids with high viscosity or a tendency to crystallize.

A wide range of material allows the user to adapt the diaphragm seal to many different type of application and process fluids.

Both diaphragm and body (wetted parts) are made completely from the specific material and welded together. A stainless steel counter flange, which is not in contact with the medium, is used to fix the diaphragm seal on the installation.

The filling fluid of the measuring system has to be chosen compatible to the application.

Min. pressure ranges	See table on page 2
Temperature	-40 °C ... +400 °C
Filling liquids	LRS1 : -15°C ... +150°C LRS9 : -40 °C ... +400 °C high temperature oil Other liquids on request
Mounting	Direct or remote from 1.5 to 12 meters
Flange types	ASME B16.5 / EN1759-1 : class 150 to 2500, NPS 2" to 3". EN1092-1 : PN 10 to 100, DN 50 to 80. Available flange faces see table on page 3. Other flange types on request.
Diaphragm and body (wetted parts)	Uranus B6, Hastelloy B2, Hastelloy C276, Hastelloy C4, Monel 400, Titanium
Counter flange	Stainless steel 1.4404 (AISI 316L)
Maximum pressure	According to the PN or the class of the flange and its standardized pressure temperature relation

Materials

	N°	D825
Counter flange	①	• Stainless steel 1.4404
Diaphragm and Body (wetted parts)	② ③	• Uranus B6 (1.4539) • Hastelloy B2 (2.4617) • Hastelloy C276 (2.4819) • Hastelloy C4 (2.4610) • Monel 400 (2.4360) • Titanium
Capillary (option)	④	• Stainless steel
